July 2008

July is heating things up in the Northern Hemisphere, and consequently many of us are in search of a break from the summer heat. For some of us this means a tall glass of ice cold lemonade or tea, taking a dip in the pool, or planning a vacation or long weekend around water activities. Whatever summer venture you have planned, I hope you have a safe and enjoyable month!

AMCA Fan Efficiency Recap

There are many different organizations interested in quantifying, encouraging, or requiring the use of efficient fans. For example; ASHRAE 90.1 contacted ASHRAE TC 5.1 members, including AMCA members and staff, to recommend a minimum efficiency number for fans; ISO TC 117 has fast tracked a new work item to aid European countries in complying with the EU Directive-Energy Using Product (EuP); the AMCA International Fan Committee is developing a fan efficiency labeling scheme that will be based on AMCA CRP ratings. Mark Stevens of AMCA, John Cermak of Acme Engineering & Manufacturing Corp. and several other AMCA members have been instrumental in all of these efforts. Stay tuned to this newsletter for the latest updates concerning fan efficiency.

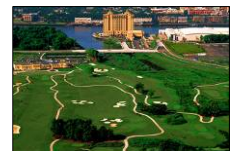

October 16-18, 2008 AMCA will host its 53rd Annual Meeting at the **Westin Savannah Harbor Golf Resort and Spa in Savannah, Georgia, USA.** The Savannah area has many places to visit and activities for members and spouses. Please plan to attend as your participation is important to the association and our industry.

Registration forms have been mailed out, meeting information and on-line registration forms are now available at www.amca.org

Commencement of the meeting begins **one day earlier** than in past meetings. This year we kick off on Thursday, October 16, with **two** educational sessions: **“What Green Means to the Air Movement and Control Industry”** and an **interactive training on AMCA’s new website.** The rest of the day is filled with Region, Committee, and Division meetings, leading up to the **6P.M. All Member Dinner/Reception on the Georgia Queen Riverboat!** Where all of you “Yankee’s” and “Rebel’s” will have a wonderful time socializing, and catching up with friends, acquaintances and colleagues.

On Friday morning, in addition to the Division meetings, we are hosting the spouse/guest coffee and hospitality. Events include a Spouses **tour of the Mercer House with lunch at Mrs. Wilkes’ Boarding House**, followed by an afternoon of friendly competition and fun at the **Men’s & Ladies Golf Shotgun**, and the annual **Mixed Tennis Tourney.** Additionally offered on Friday are *House Museum Tours of the Andrew Low House, and Owens Thomas House.*

Saturday morning begins at 8:00 a.m. with **General Session Breakfast-spouses welcome**, followed by **General Session Business Meeting - members only**, closing at **11:30 a.m.**, giving you plenty of time to change, and have lunch before departing for a fun filled afternoon of tours. Tours include (1)Westin Property Golf, (2) Sea Kayaking, and (3) Get out of town - Low Country Scenic Tour.

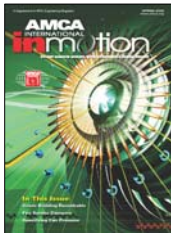

Saturday evening is the **Presidents Reception and Dinner Dance**, complete with a spectacularly planned menu, music, and dancing. I am sure all of us Southern “Belles” and “Gents” are in for an elegant and especially fun evening!

As you can tell this will be an action-packed, fun-filled annual meeting. **Register early** at www.amca.org.

Sponsors are welcome. Currently we have **15 Companies, both non-members and members**, who have generously committed to sponsor some of the events at the October Annual Meeting:

AMCA InMotion

As the official publication of the **Air Movement and Control Association International (AMCA)**, AMCA inmotion is dedicated entirely to mechanical ventilation systems – air movement and control. This issue includes articles such as; Fan Selection, Green Building Round Table, and Fire Smoke Dampers.

AMCA inmotion will reach HPAC ENGINEERING'S entire circulation of 57,000 engineering professionals, and 95% of those subscribers design, specify, recommend, and/or select Air Distribution/Ventilation Equipment.

**** NOTE****

**** Please contact Marian Vambreck at mvambreck@amca.org for details about advertising or to submit editorial content for inmotion magazine****

AMCA publishes English version of Author Alain Guédel's, "**Acousitique des ventilateurs**" (**Fan Acoustics-Noise Generation and Control Methods**); CETIAT a not-for-profit industrial technical center located in Villeurbanne Cedex, France, has granted AMCA International full publishing rights for the English version of Alain Guédel's work entitled "Acousitique des ventilateurs." (Fan Acoustics-Noise Generation and Control Methods.) AMCA International's TACOS committee was commissioned with the task of translating the work from French to English. This book fulfills a much needed gap in available literature for ventilation engineering. Available for purchase through the AMCA website, priced at \$60 for AMCA members and \$120 for Non-AMCA members.

To order or download Fan Acoustics, Noise generation and Control Methods, visit www.amca.org

CRP Violation Procedure

At its past October meeting, the AMCA International Board of Directors approved a new procedure to put stricter penalties into the AMCA Certified Ratings Program. The 'penalties', in this case, generally consist of public notification through AMCA International's website (www.amca.org) of all CRP violations. Prior to implementing this procedure the Board wants to give the membership an opportunity to read the procedure and become familiar with its requirements. It is their intent to have this procedure fully implemented six months after this newsletter reaches you. The procedure can be found on the AMCA International website at

<http://www.amca.org/crp/documents.asp>, then by clicking "CRP Violation Brochure". Please contact Joe Brooks (jbrooks@amca.org) or Lisa Ullrich (lullrich@amca.org) of the AMCA staff if you have any questions.

Marketing Committee Update

Currently the committee is working on development of a Green Campaign for AMCA, which will include outcomes from the ASHRAE 90.1 committee, in the development of a Fan Efficiency Labeling System. AMCA's newly designed website is targeted to debut early this fall, and staff is offering an educational session during the October Annual meeting. The committee has completed the filming of an AMCA Corporate promotional DVD/Video, which debuted at the Midyear Meeting. This new DVD/Video is intended to be used for marketing AMCA to universities, providing increased exposure to students and instructors, specifiers, and distribution at trade shows. Staff is having the video replicated; all members will be receiving their copy by the end of July. Please view the video at www.amca.org

Have a great month, and check back next month for current details on upcoming meetings and events within your association.

Respectfully,

Gary Benson

Statistical Program

Has your company signed-up for this program?

70% of our North American members are participating in AMCA International's Statistical Program!

If you have any questions, or still have not registered for this member benefit program, please email Christie Kornacker or Marian Vambreck at ckornacker@amca.org or mvambreck@amca.org.

A technical paper entitled "External Shading Devices in Commercial Buildings"

AMCA International collaborated with John Carmody and Kerry Haglund from the Center for Sustainable building Research at the University of Minnesota to develop the technical publication detailing the benefits of sunshade devices (louvers). **AMCA International's Standard 530** committee members provided input and guidance to the publication.

External Shading Devices in Commercial Buildings is published by AMCA International and is available for download on the AMCA website at www.amca.org.

appi Electricity & Utility Update

An AMCA Member who participates in the appi program has a projected savings from 12/1/2005 to 11/30/2010 of \$255,000.

About appi

A member benefit of your association is the APPi Savings Solutions Program. Managed by Affiliated Power Purchasers International (appi), an independent utility consulting firm, this program provides savings solutions for your business. appi's electricity procurement service protects your business and your bottom line. appi reviews pricing and product options, and then presents you with the most competitive electricity rates. You choose whether to implement appi's solutions.

Contact appi at (800) 520-6685 or info@appienergy.com

Confidence Index

AMCA's popular confidence Index for Bookings report for the 3rd Quarter of 2008 is available at www.amca.org.

The confidence index is a subjective expression by member companies on the relative health or vigor of the industry categorized by market segment. Member companies are asked to indicate, via a short survey, the changes they anticipate in bookings over the next three months compared to the same quarter of the previous year, and previous quarter. Market segments included in the survey are residential, commercial and institutional, industrial (including power generation and agricultural).

Please visit AMCA International's website and click on MyAMCA Member Login. If you do not have a password or forgot your password, contact Linda Plesh at lplesh@amca.org.

Publications and Standards are available as downloads or printed copy on AMCA International's website at www.amca.org.

AMCA International White Paper, Certified Ratings – A Closer Look

Available on the AMCA website, this paper explains to prospective buyers, specifiers, contractors, and users of air movement and control devices the need for validated published product performance ratings. The paper details the difference between AMCA Certified, Test in Accordance with, or Tested at AMCA. The paper is available for download on the AMCA website at www.amca.org and is available in several languages.
