

**AMCA International**

**High Performance Air System (HPAS) Task Force**

**A Subcommittee of the AMCA Marketing Committee**

**Chair:**

Tom Edwards, President, Ruskin  
[Tomedwards@ruskin.com](mailto:Tomedwards@ruskin.com)

**Secretary:**

Michael Ivanovich, Director of Strategic Energy Initiatives, AMCA International  
[mivanovich@amca.org](mailto:mivanovich@amca.org)

**MISSION STATEMENT**

Our mission is to educate, promote and articulate why High Performance Air Systems is the preferred commercial HVAC system of choice for consulting/design engineers, installation contractors, building owners, code officials, commissioning providers, and facility operators.

This committee will develop and advocate an industry-consensus message on the attributes and benefits of the proven concept of High Performance Air Systems. This message will emphasize the advantages of High Performance Air Systems; energy efficiency, free cooling, life-cycle cost, ease of maintenance, superior IAQ and occupant comfort.

For more information about this task force, contact Michael Ivanovich at [mivanovich@amca.org](mailto:mivanovich@amca.org).
