## **AMCA INTERNATIONAL REVISES AMCA PUBLICATION 211**

ARLINGTON HEIGHTS, Ill., Dec. 14, 2016 - The Air Movement and Control Association (AMCA) International Inc. announces the revision of Publication 211, *Certified Ratings Program Product Rating Manual for Fan Air Performance*.

The new designation for Publication 211 is AMCA Publication 211-13 (Rev.10-16). AMCA Publication 211-13 (Rev. 10-16) was adopted by AMCA membership on October 11, 2016.

AMCA Publication 211 prescribes technical procedures to be used in connection with the AMCA Certified Ratings Program for fan air performance. Products that can be licensed by AMCA to bear the AMCA certified ratings seal are those defined in ANSI/AMCA Standard 99, Section 0068; ISO 13349 and IEC 60335-2-80 and are within the product scope of AMCA International. The program applies only to fans and is not applicable to their component parts such as fan impellers and housings.

AMCA Publication 211-13 (Rev. 10-16) is available at the AMCA bookstore at [www.amca.org/store](http://www.amca.org/store) for no cost. A redline version showing what has changed since the 2013 edition will soon be available at the AMCA Store.

For more information regarding this publication, please contact Erin Moore at [emoore@amca.org](mailto:emoore@amca.org) or +1 (847) 704-6285.

### **About AMCA International**

*The Air Movement and Control Association (AMCA) International Inc. is a not-for-profit trade association with more than 360 member companies worldwide representing more than \$3 billion in annual revenue. AMCA's mission is to advance the health, growth and integrity of the air movement and control industry, with programs like certified ratings, verification of compliance and international standard development. AMCA also advocates for model codes, regulations and utility incentive programs that promote efficiency and life safety. **For more information about AMCA, visit [www.amca.org](http://www.amca.org).***
