AMCA INTERNATIONAL SEEKS AMCA STANDARD 610 COMMITTEE MEMBERS

ARLINGTON HEIGHTS, Ill., June 13, 2017 - The Air Movement and Control Association (AMCA) International Inc. announced it is seeking technical committee members for the revision of AMCA Standard 610, *Laboratory Methods of Testing Airflow Measurement Stations for Performance Rating*.

AMCA 610 covers field-installed airflow measurement stations for heating, ventilating and air conditioning applications.

Committee members would be expected to participate in the drafting, review and resolution of any and all comments on the standard until the revised standard is approved by the membership. Most (possibly all) meetings will be by conference call via GoToMeeting.

For more information regarding this publication or to volunteer for this committee, please contact Erin Moore at emoore@amca.org or +1 (847) 704-6285 by July 6, 2017.

About AMCA International

The Air Movement and Control Association (AMCA) International Inc. is a not-for-profit trade association with more than 370 member companies worldwide representing more than \$3 billion in annual revenue. AMCA's mission is to advance the health, growth and integrity of the air movement and control industry, with programs like certified ratings, verification of compliance and international standard development. AMCA also advocates for model codes, regulations and utility incentive programs that promote efficiency and life safety. For more information about AMCA, visit www.amca.org.
