AMCA INTERNATIONAL HOLDS SEMINAR IN MUSCAT, OMAN

ARLINGTON HEIGHTS, Ill., APRIL 23, 2017 - The Air Movement and Control Association (AMCA) International Inc. is pleased to announce that it held a technical seminar at Grand Hyatt Muscat in the Sultanate of Oman, on April 5, 2017.

The event provided instruction to an audience of more than 50 engineers from Oman consulting firms, contractors, distributors, and government agencies. Presenting at the seminar were Mr. Amit Ahuja, general manager, Maico Gulf, who is chair of the AMCA Middle East Region and a member of the AMCA Board of Directors and AMCA Executive Committee, and Michael Ivanovich, senior director, Industry relations, AMCA International.

Mr. Ahuja gave an overview of AMCA International and the AMCA Middle East Region. Ivanovich described the AMCA Certified Ratings Program, how to specify AMCA-certified products, and how to save energy in air systems.

“The Omani seminar was a great first step to introducing AMCA and the Certified Ratings Program to the engineering and construction community in Muscat,” said Amit Ahuja. “Oman is an important member of the Gulf Cooperation Council, and having an AMCA presence there will benefit AMCA Middle East members.”

“It was a pleasure working with the staff of AMCA members in Oman to make this event happen,” said Michael Ivanovich. “Omani engineers asked a lot of questions, demonstrating their interest in AMCA’s message and their dedication to continuing education and professional development. We look forward to having another seminar in Muscat.”

About AMCA International

The Air Movement and Control Association (AMCA) International Inc. a not-for-profit trade association with more than 370 member companies worldwide representing more than \$3 billion in annual revenue. AMCA’s mission is to advance the health, growth and integrity of the air movement and control industry, with programs like certified ratings, verification of compliance and international standard development. AMCA also advocates for model codes, regulations and utility incentive programs that promote efficiency and life safety. For more information about AMCA, visit www.amca.org.
