Air System Engineering and Technology Conference - Europe

**Welcome to Air System Engineering and Technology (ASET) Conference - Europe 2019, the European Air Movement and Control Association (AMCA) annual engineering conference on air systems.**

ASET-EU will provide in-depth technical education to engineers, architects, contractors, regulators, and commissioning providers. With topics identified in consultation with

local Firms and project managers, the content for the conference is specifically developed for the European market.

ASET-EU will bring noted speakers from Europe and around the world to conduct sessions on a range of topics certain to appeal to the air movement industry and will feature a morning keynote session from the European Commission.

ASET-EU sessions will include topical technical sessions on:

- Finding from the investigation of the Grenfell Tower fire in the UK
- The Fan Energy Index (FEI) and Europe
- How international standards relate to one another
- Understanding and combating System Effects
- A fan system symposium with speakers from around the world conducting a panel discussion on industry surveillance around the world

**We look forward to seeing you in Brussels on 5 November!**
