AMCA INTERNATIONAL SEEKS AMCA PUBLICATION 550 COMMITTEE MEMBERS

ARLINGTON HEIGHTS, III., December 11, 2017 - The Air Movement and Control Association (AMCA) International Inc. announced it is seeking technical committee members for the revision of AMCA Standard 550: Test Method for High Velocity Wind Driven Rain Resistant Louvers.

The purpose of AMCA 550 is to establish uniform laboratory test methods and minimum performance ratings for water rejection capabilities of louvers that are intended to be used in high velocity wind conditions.

The scope of the tests will be conducted in accordance with the requirements of this standard and are intended to demonstrate the acceptability of the louver in which water infiltration must be kept to manageable amounts during a high velocity wind driven rain event. The test specimen can be approved in either an open or closed position as stated in Section 5.

Committee members would be expected to participate in the drafting, review and resolution of all comments on the standard until the revised standard is approved by the membership. Most (possibly all) meetings will be by conference call via GoToMeeting.

For more information regarding this publication or to volunteer for this committee, please complete the commitment form here: <u>https://www.cognitoforms.com/AMCA1/_550TechnicalCommitteeInvitation12112017</u> or contact Erin Moore at emoore@amca.org or +1 (847) 704-6285 by January 11, 2018.

About AMCA International

The Air Movement and Control Association (AMCA) International Inc. Is a not-for-profit trade association with more than 370 member companies worldwide representing more than \$3 billion in annual revenue. AMCA's mission is to advance the health, growth and integrity of the air movement and control industry, with programs like certified ratings, verification of compliance and international standard development. AMCA also advocates for model codes, regulations and utility incentive programs that promote efficiency and life safety. For more information about AMCA, visit www.amca.org.
